

YASHPAL SAINI

Data Analyst | SQL · Python · Financial Analytics · Product Analytics

New York, NY | (646) 289-1606 | yashsaini30668@gmail.com | [Technical Portfolio](#) | [LinkedIn](#) | [GitHub Profile](#)

SUMMARY

Data analyst with 2+ years building pipelines, running experiments, and turning complex data into decisions that move the business, across product analytics, financial reporting, and budget analysis.

AREA OF EXPERTISE

SQL · Python (Pandas, Scikit-learn, SciPy) · R · BigQuery · dbt · Snowflake · Tableau · Power BI (DAX) · Looker (LookML) · A/B Testing · Statistical Analysis · Funnel Analytics · Attribution Modeling · Cohort Analysis · Customer Segmentation · Financial Reporting · Budget Analysis · Dashboard Development · Data Pipeline Development · GA4

EXPERIENCE

Research Foundation of CUNY | New York, NY

Aug 2025 – Present

Data Specialist Intern (Graduate Internship, part-time while pursuing M.S.)

- Rebuilt reporting across 7 fragmented data sources into a BigQuery pipeline using SQL CTEs and aggregations, cutting delivery time by 55% for 26 stakeholders.
- Built data quality checks at ingestion and governance controls covering access permissions and audit trails, improving data accuracy by 37% for executive reporting.
- Built financial KPI frameworks in Power BI with DAX time intelligence functions, cutting ad hoc data requests by 40% across 26 institutions.
- Automated recurring data collection across 26 sites using Power Automate, cutting manual effort by 60% and keeping data fresh for downstream reporting cycles.

I3 Infosoft Pvt. Ltd. | Noida, India

Sep 2022 – Jul 2024

Data Analyst (Full-time)

- Used Pandas and Scikit-learn to segment 1M+ CRM records by revenue and LTV, with targeting recommendations that improved product engagement by 18%.
- Ran A/B experiments using SciPy across 3 product lines, quantifying revenue impact per variant and delivering financial recommendations that shaped quarterly strategy.
- Built Tableau and Looker dashboards using LookML dimensions tracking 15+ KPIs across 3 business units, giving leadership same-day performance visibility.
- Built P&L reports and budget vs. actuals trackers in Excel using array functions and power pivots, presenting revenue variance analysis to finance leads.

LEADERSHIP & ACTIVITIES

Baruch College, Office of Student Life | New York, NY

Mar 2025 – Present

Assistant Budget Specialist

- Manage a \$1.03M annual budget across 140+ student clubs, analyzing expenditures against allocations and flagging variances to ensure accurate and accountable use of funds.
- Process reimbursement requests across 110+ undergraduate and 25 graduate clubs, reconciling receipts against approved budgets and maintaining audit trails for compliance.

JAX Foundation | Community-focused NGO | Noida, India

Jan 2021 – Feb 2022

Assistant Director of Marketing

- Designed and ran multi-channel marketing campaigns across digital and on-ground platforms, growing community reach and event attendance 6x over the engagement period.
- Drove donor acquisition and fundraising efforts, adding 52 new donors and increasing total donation amounts through targeted outreach and storytelling campaigns.

PROJECTS

Enchanted AdLab | [Live App](#) | Python, Streamlit, SciPy, Scikit-learn, DuckDB

Mar 2026

- Full-stack ads experimentation platform in Python: automated test selection, Bayesian posteriors, SRM detection, and a DuckDB SQL lab showing revenue impact per cohort.

Revenue Drop Diagnosis + Attribution | [Live Demo](#) | SQL, Python, Scikit-learn, Tableau

Mar 2026

- Scikit-learn attribution showed 2 channels driving 78% of revenue at 3.5x ROAS while 3 others consumed 40% of budget with near-zero return, informing a reallocation decision.

EDUCATION

Baruch College, Zicklin School of Business

Expected May 2026

M.S. in Business Analytics, GPA: 3.6/4.0 | Pliner Bloom Scholar | Coursework: Statistical Modeling, Data Mining, Applied Regression, Machine Learning
